PROFILE SUMMARY

React Native Developer with over 4 years of hands-on expertise in building scalable and high-performance mobile applications.

EDUCATION

2023

MCA

Subharti Institute of Technology and Engineering, Meerut

WORK EXPERIENCE

Feb 2022 - Present

React Native Developer

iQuinceSoft Consulting Services

I am a React Native developer with 4 years of hands-on experience building high-quality mobile applications for both Android and iOS platforms. Proficient in JavaScript and TypeScript, I specialize in crafting clean, scalable, and efficient code. I have extensive experience integrating RESTful APIs, implementing Redux for state management, and conducting both manual and automated testing using tools like Detox.

Sep 2021 - Dec 2022

Android Application Developer

MMI SOFTWARES

I was responsible for designing and developing native Android applications using Java and Kotlin. I worked closely with UI/UX designers to implement clean and responsive interfaces, integrated RESTful APIs, and ensured app performance and stability across multiple devices. I also collaborated with QA teams for testing and debugging, and followed Agile practices to deliver regular updates.

Projects

10 Months

See Job Run

See job Run is a application specifically designed forthe construction industry. It hel

contractors, architects, and construction workers manage various aspects of constru

projects, such as project management, collaboration, documentation, scheduling, and

2 Months

FcDallas

As an Android Developer, I was involved in building and enhancing the official mobile application for FC Dallas, a Major League Soccer team. My responsibilities included developing native Android features to provide fans with real-time match updates, news, schedules, ticketing options, and live scores. I integrated RESTful APIs to fetch and display dynamic content and worked on optimizing performance for smooth navigation and faster load times.
